- Or**
- 'What more can we want than that?' What makes Maurya say this?

SECTION - B (Reading)

8. **Read the passage given below and answer the questions that follow:**
- (1)It is a land of folklore passed down the generations through word of mouth. Here, music is an integral part of life; folk songs eulogizing ancestors, the brave deeds of warriors and traditional heroes; poetic love songs immortalizing ancient tragic love stories ; Gospel songs that touch your soul (should you have a religious bent of mind) or the modern tunes rendered exquisitely to set your feet a-tapping.
- (2)Each of the 17 odd tribes and sub-tribes that dwell in this exotic Hill State can easily be distinguished by the colourful and intricately designed costumes, jewellery and beads that they adorn. The present generations of Nagas have ventured into fashion designing in a big way, representing fabrics that represent the ancestral motifs blended with modern appeal. Indeed, it is a beautiful mix of the past with the present, a paradise for those who are into fashion designing .This is an affluent fashion station of the East.
- (3)In days of yore, every warrior had to earn the traditional fineries through acts of valour in order to wear them. Nature could not have been kinder to Nagaland, sometimes referred to as the Switzerland of the East; the exquisitely picturesque

landscapes, the vibrantly colourful sunrise and sunset, lush and verdant flora; this is a land that represents unimaginable beauty, moulded perfectly for a breathtaking experience.

(4) Nagaland is blessed with salubrious climate throughout the year and one can visit it anytime. If one is looking for a quiet getaway from the hustle and bustle of city life it provides the right ambience; as life here is laidback and slow-providing a tension free life. For the adventurous and the intrepid, Nagaland is an ideal place for trekking, rock climbing, jungle camping and offers limitless exploration possibilities in its lush and vibrant sub-tropical rain forests which are also a treasure trove of a plethora of medicinal plants.

- (i) Answer the following questions:
- (a) What forms an integral part of the lives of the Nagas? 1
 - (b) What distinguishes one tribe from the other? 2
 - (c) How has nature been kind to Nagaland? 2
- (ii) Answer the questions given below as directed: 3x1=3
- (a) *Indeed it is a beautiful mix of the past with the present, a paradise for those who are into fashion designing-* which of the following is a synonym of the underlined word in the given context? (Paragraph 2)
- i. Heaven ii. Flourishing ground
 - iii. State of happiness iv. Garden
- (b) How is Nagaland a quiet getaway? (Paragraph 4)
- i. It provides tension free life.
 - ii. It provides scope for adventure.
 - iii. It is free from the hustle and bustle of city life.
 - iv. All of the above
- (c) Nagaland is an ideal place for _____.(Paragraph 4)
- A. Trekking
 - B. Boating
 - C. Rock climbing
 - D. Para gliding
- Select the correct option
- i. Only A ii. Only B
 - iii. Only A and C iv. Only A and D

9. Read the passage given below and answer the questions that follow:

(1) Cardamom, the Queen of all spices, has a history as old as the human race. Warm humid climate, loamy soil rich in organic matter, distributed rainfall and special cultivation and processing methods all combine to make Indian cardamom truly unique in aroma, flavour, size and it has a parrot green colour. Two types of cardamom are produced in India. The first type is the large one, which has not much significance as it is not traded in the future market. It is cultivated in North-eastern area of the country. The second type is produced in the Southern states and these are traded in the future market. These are mainly cultivated in Kerala, Tamil Nadu and Karnataka.

- (2) Cardamom is an expensive spice, second only to saffron. It is often adulterated and there are many inferior substitutes from cardamom-related plants such as Siam cardamom, Nepal cardamom, Winged Java cardamom, etc. However, it is only *Elettaria cardamom* which is the true cardamom. Indian cardamom is known in two main varieties: Malabar cardamom and Mysore cardamom. The Mysore variety contains levels of cineol and limonene and hence is more aromatic.
- (3) North India is the main market for cardamom produce in the country. Normally, domestic demand goes up during the major festivals such as Diwali, Dussehra and Eid. Colour, size and aroma are the major variables that shape cardamom prices in the Indian market.
- (4) Kerala is the main producer of cardamom and contributes up to 60% in total production. Karnataka produces around 25% cardamom of the total production. Ooty is the main producer of cardamom in Tamil Nadu and contributes around 10-15% of the total production. Besides India, Guatemala also produces around 2,200 tons of cardamom.
- (i) Answer the following questions:
- | | |
|--|----------|
| (a) How is cardamom known as? | 1 |
| (b) What are the two main varieties of Indian cardamom? | 2 |
| (c) When does the domestic demand for cardamom go up in India? | 2 |
- (ii) Read the passage and answer the questions given below as directed: **3x1=3**
- (a) According to the passage, which of the following states does not produce cardamom? (Paragraph 1)
- | | |
|-----------------|---------------|
| i. Kerala | ii. Karnataka |
| iii. Tamil Nadu | iv. Bihar |
- (b) *Cardamom is an expensive spice, second only to saffron. It is often adulterated.* Which of the following is the correct antonym of the underlined word? (Paragraph 2)
- | | |
|-------------|--------------|
| i. Degraded | ii. Pure |
| iii. Impure | iv. Superior |
- (c) The true cardamom is known as _____. (Paragraph 2)
- | | |
|-------------------------|-------------------------------|
| i. Winged Java Cardamom | ii. <i>Elettaria Cardamom</i> |
| iii. Siam Cardamom | iv. Nepal Cardamom |

10. **Read the poem carefully and answer the questions that follow:**

Where go the Boats?

Dark brown is the river.

Golden is the sand.

It flows along for ever,

With trees on either hand.

Green leaves a-floating,

Castles of the foam,

Boats of mine a- boating –

Where will all come home?

On goes the river
 And out past the mill,
 Away down the valley,
 Away down the hill.

Away down the river,
 A hundred miles or more,
 Other little children
 Shall bring my boats ashore. (R.L Stevenson)

- (i) Choose the correct rhyme scheme of the poem. 1
- a. abbc b. aabc
 c. abcc d. abab

(ii) Fill in the blanks to complete the summary of the poem: 6x¹/₂=3

This little poem is all about a _____. It longs for its _____ which are probably made of paper. They flow along a _____ which is dark brown in colour while its bed is _____. It flows along trees, green leaves and bubbles of water called _____. It passes through the mill, down the valley and hill. At the end boats may reach _____.

b. 'Biogas is considered as an ideal domestic fuel'. Give four reasons in support of the statement.
- 12.a. Mention any four features of local self-government. 4
Or
b. Briefly explain any four functions which political parties perform in a democracy.
13. Read the source/passage given below and answer the following questions that follows:

Today, Indian agriculture finds itself at a crossroads. To make agriculture successful and profitable, proper thrust should be given to the improvement of the condition of marginal and small farmers. The green revolution promised much. But today it's under controversies. It is said that it has triggered the vanishing of biodiversity, drying up of aquifers and is resulting in land degradation due to overuse of chemicals and exploitation. The keyword today is "gene revolution", which includes genetic engineering. Organic farming is also much in vogue today because it is practised without factory-made chemicals such as fertilizers and pesticides. A few economists think that Indian farmers have a bleak future if they continue growing food grains on the holdings that grow smaller and smaller as the population rises. India's rural population is about 600 million which depends upon 250 million (approximate) hectares of agricultural land, an average of less than half a hectare per person. Indian farmers should diversify their cropping pattern from cereals to high-value crops such as fruits, medicinal herbs, flowers, vegetables and bio-diesel crops like jatropha and jojoba. These crops need less irrigation water and give high yields. This would increase the incomes of farmers and reduce environmental degradation. However, if land is utilized to grow high-value crops instead of cereals, India would have to import food and export high value commodities.

Questions:

- i) Give one reason why Green Revolution is under controversy? **1**
- ii) What is organic farming? **1**
- iii) Bio-diesel crops jatropha and jojoba have been referred to as high-value crops. Why? **2**

14. Read the source/passage given below and answer the following questions that follows:

Different persons can have different development goals. What may be development for one may not be development for the other. It may even be destructive for the other. Each of us seek different things. People seek things that are important for them, i.e., that which can fulfil their aspirations or desires. In fact, at times two persons or group of persons may seek things which are conflicting. A girl expects as much freedom and opportunity as her brother and that he also shares in the household work. However, her brother may not like this. Similarly, to get more electricity, industrialists may want more dams but this may submerge the land and disrupt the lives of the tribal. They might resent this and may prefer small check dams or tanks to irrigate their land. Thus, different development needs are based on their particular life situations.

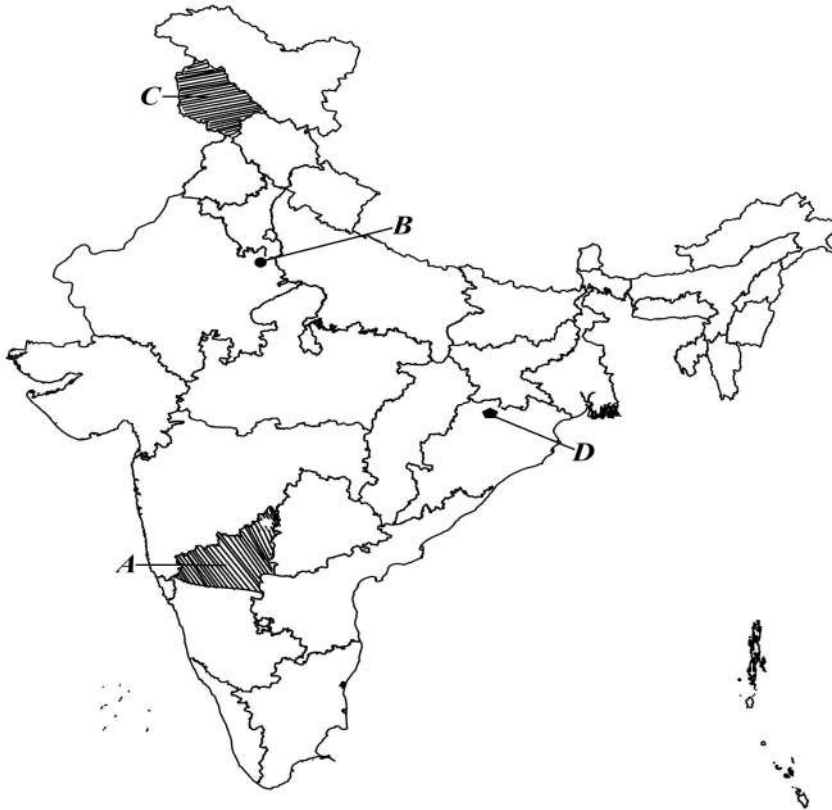

Besides seeking more income, one way or the other, people also seek things like equal treatment, freedom, security and respect of others. In fact, in some cases, these may be more important than income or more consumption because material goods are not all that you need to live. Money or material things that one can buy is one factor on which our life depends. But the quality of our life also depends on non-material things like friendship, honesty, job security, etc. Hence, the development goals that people have are not only about better income but also about other important things in life.

Questions:

- i) Why do people have different ideas of development? **1**
- ii) Cite an example of how development can be conflicting. **1**
- iii) How can we say that people look at a mix of goals for development? **2**

15. On the given political map of India, four features A, B, C, D have been indicated. Identify these features with the help of the information mentioned below and write their correct names against the given letters. **4**

Faridabad Thermal Power Station
Rourkela iron and steel plant
Area of black soil
Maize producing area

Note : The following questions are for visually impaired candidates only in lieu of Q 15.

- i) What is a mineral? (1)
- ii) Where is Tarapur nuclear power station located? (1)
- iii) Name the two main fibre crops of India. (1)
- iv) Which city is called the ‘Silicon Valley of India’? (1)

Answer the questions in about 80-100 words:

- 16.a. Briefly explain the role of religious groups in the development of anti-colonial feelings in Vietnam. (1)
- Or**

1. **Choose the correct answer from the given alternatives:** **10x1=10**

- i. The only people who often interact directly with customers are
 - a) wholesalers
 - b) importers
 - c) retailers
 - d) distributors
- ii. Stock should be maintained so as to mitigate uncertainties in
 - a) wholesale operation
 - b) supply or demand
 - c) market operation
 - d) store operation
- iii. To remain competitive, it is essential to provide high quality service, trustworthiness and
 - a) transparency
 - b) commitment
 - c) credibility
 - d) compatibility
- iv. The process of bringing products from a retailer or other point of sale to the customers' door is known as
 - a) transportation
 - b) delivery
 - c) business
 - d) retailing
- v. Which of the following is **not** a cause of accident in retail stores?
 - a) Even floor conditions
 - b) Leaky ceilings
 - c) Narrow walkways
 - d) power short-circuit
- vi. An agreement made between two parties is also known as
 - a) reconciliation
 - b) cooperation
 - c) contract
 - d) commitment
- vii. Public signs and visual symbols are part of
 - a) written communication
 - b) verbal communication
 - c) visual communication
 - d) non-verbal communication
- viii. It is generated by pent-up worries, frustration and apprehension.
 - a) Survival stress
 - b) Environmental stress
 - c) Work-related stress
 - d) Internal stress
- ix. What are small pictures on the desktop called?
 - a) Icons
 - b) Wallpaper
 - c) Taskbar
 - d) Notification bar

- x. Which of the following is **not** a commercial function of entrepreneur?
 - a) Production
 - b) Policy making
 - c) Finance
 - d) Accounting

Answer the following questions in one word or one sentence:

- 2. What is batch control? 1
- 3. State any two factors that affects loading and unloading of merchandise. 1
- 4. What is accident? 1
- 5. What is constructive feedback? 1
- 6. Mention any two principles of effective communication. 1
- 7. Write any two types of self-awareness. 1
- 8. What is a file? 1
- 9. Who is an entrepreneur? 1

Answer the following questions in 20-50 words:

- 10. Write any two duties and responsibilities of the store operations assistant. 2
- 11. Define the term 'retail operation'. Mention any two retail activities. 1+1=2
- 12. Mention any two problems associated with retail transportation. 2
- 13. Write two manners on how retail bagging is done. 2
- 14. What is workplace violence? Suggest one measure to prevent violence, shoplifting and robbery at workplace. 1+1=2
- 15. Briefly explain any two importance of feedback. 2
- 16. What is challenging work environment? State any one suggestion to inspire an employee amid challenging workplace condition. 1+1=2
- 17. Mention two main principles of sustainable development. 2

Answer the following questions in 60-100 words:

- 18. a) What is stock control? Briefly explain any three techniques of stock control. 1+3=4

Or

- b) Briefly explain any four points that need to be considered while responding to customer queries and feedback. (4)
- 19. a) Explain four rules regarding delivery of goods.

Or

- b) Explain the procedures of delivery of items in the case of store shipping. 4
- 20. Explain four common safety concerns in retail store. 4
- 21. 'Without teamwork, a business or organization won't be able to meet its goals'. Justify the statement. 4

- ii) *All questions are compulsory.*
- iii) *The question paper consists of 21 questions.*
- iv) *Marks allocated to every question are indicated against it.*
- v) *Write the correct question number in your answer sheet to indicate the option being attempted.*

N.B: *Check to ensure that all pages of the question paper are complete as indicated on the top left side.*

1. Choose the correct answer from the given alternatives: 10x1=10

- i. It is a complex mixture of gestures, movement, posture and tone of voice.
 - a) Kinesics
 - b) Proxemics
 - c) Haptics
 - d) Body language
- ii. Norton, AVG and Kaspersky are examples of
 - a) antivirus
 - b) system software
 - c) operating system
 - d) windows firewall
- iii. Sustainable development requires judicious use of
 - a) human resources
 - b) physical resources
 - c) natural resources
 - d) man-made resources
- iv. Which of the following product is used to protect our skin from UV rays?
 - a) Cream
 - b) Sunscreen
 - c) Toner
 - d) Moisturizer
- v. What is used to perform threading?
 - a) Nylon thread
 - b) Polyester thread
 - c) Woollen thread
 - d) Cotton thread
- vi. Which of the following is an eyebrow shape?
 - a) C shaped
 - b) L shaped
 - c) S shaped
 - d) U shaped
- vii. This type of make up usually requires minimal use of cosmetic products.
 - a) Nude make up
 - b) HD make up
 - c) Matte make up
 - d) Dewy make up
- viii. Which of the following is **not** a purpose of make up?
 - a) Enhance our features
 - b) Make us happy
 - c) Look beautiful
 - d) Hide our imperfections
- ix. The fastest and easiest way to increase customer loyalty in beauty and wellness industry is by improving
 - a) the infrastructure
 - b) the make up tools
 - c) cosmetic products
 - d) the customer service

- x. 'Be on time, your client's time is limited and valuable' is to do with
 - a) professionalism
 - b) personal grooming
 - c) customer satisfaction
 - d) customer attraction

Answer the following questions in one word or one sentence:

- 2. State any two key factors affecting effective communication. 1
- 3. What is computer? 1
- 4. Mention any two primary goals of sustainable development. 1
- 5. What are the tiny holes or pores on our skin from which hair grow are known as? 1
- 6. What do we use, when our skin becomes dull and dry? 1
- 7. Name any two types of waxing. 1
- 8. What should be applied on the face to complete the look in the process of make up? 1
- 9. List any two ways to create positive impression at workplace. 1

Answer the following questions in 20-50 words:

- 10. What is stress? Write two sources of stress in modern times. 1+1=2
- 11. Briefly describe two advantages of pursuing entrepreneurship as a career. 2
- 12. Describe two basic steps that is involved in skin care routine. 2
- 13. What is waxing? State one safety tips to be followed in waxing. 1+1=2
- 14. What is threading? Name any two types of threading. 1+1=2
- 15. What is airbrush make up? State one way of preparing airbrush make up. 1+1=2
- 16. Differentiate between HD make up and bridal make up. 2
- 17. Write any two importance of etiquettes in workplace. 2

Answer the following questions in 60-100 words:

- 18. (a) Explain any four skin care products. 4
- Or**
- (b) Explain the functions of epidermis, the top layer of the skin.
- 19. (a) What is bleaching? Write any three step by step procedures of bleaching. 1+3=4
- Or**
- (b) Write any four safety tips to be followed during threading session. (4)
- 20. Describe any four make up procedures. 4
- 21. Define etiquette. Explain three benefits of correct etiquettes in a workplace. 1+3=4

1. Choose the correct answer from the given alternatives: 10x1=10

- i. The strength of magnetic field is
 - (a) Volt
 - (b) Newton per coulomb
 - (c) Tesla
 - (d) Coulomb per second
- ii. With the circuit, a fuse is always connected in
 - (a) Parallel
 - (b) Series
 - (c) Both parallel and series
 - (d) Star
- iii. If the mixer grinder shuts down automatically, then it could be a problem of
 - (a) Loose blade
 - (b) Crack in the jar
 - (c) Faulty wiring
 - (d) Broken coupler
- iv. In a microwave oven, the cooking surface is generally made up of ceramic or
 - (a) Enamel
 - (b) Copper
 - (c) Silver
 - (d) Glass
- v. What is the safest distance to keep from all electrical panels?
 - (a) 3 feet
 - (b) 4 feet
 - (c) 5 feet
 - (d) 5 feet
- vi. Under which type of fire does cooking oils and fats come?
 - (a) Type A
 - (b) Type C
 - (c) Type D
 - (d) Type K
- vii. Stress generated by pent up worries; frustration and apprehension in inner self is called
 - (a) Internal stress
 - (b) Survival stress
 - (c) Environmental stress
 - (d) Work related stress
- viii. A recycled file will get stored in which folder?
 - (a) Downloads
 - (b) Document
 - (c) Recycle bin
 - (d) Pictures
- ix. Which of the following is not a characteristic of a successful entrepreneur?
 - (a) Self confident
 - (b) Risk taking
 - (c) Action oriented
 - (d) Indecisive
- x. Which of the following is a primary goal of sustainable development?
 - (a) Making government policies
 - (b) Economic growth
 - (c) School administration
 - (d) Weather forecast

Answer the following questions in one word or one sentence:

- 2. What is a motor? 1
- 3. What is the basic working principle of home appliances in house hold applications? 1
- 4. Name any two products with small energy rating label. 1
- 5. Write any two types of operating system in computer. 1
- 6. What is self awareness? 1
- 7. State one myth and reality of an entrepreneur. 1
- 8. What are electrical hazards? 1
- 9. Write one objective of sustainable development goals. 1

Answer the following questions in 20-50 words:

- 10. Differentiate between DC and AC fuses. 2
- 11. Write the steps to change rotary incher switch. 2
- 12. What is non verbal communication? Mention any two components of non verbal communication. 1+1=2
- 13. Name any two types of juicers and write their uses. 1+1=2
- 14. What is the problem if microwave appears dead? Write one factor that may cause this condition. 1+1=2
- 15. What are standard operating procedures (SOP)? Name a material that can be used to remind workers of chemical hazards. 1+1=2
- 16. 'Being able to act quickly in an emergency situation is paramount to an electrician's working life'. Justify the statement with two points. 2
- 17. State Fleming's Right Hand Rule. 2

Answer the following questions in 60-100 words:

- 18. (a) Explain briefly any two parts of motors. 4

Or

 (b) Explain briefly electromechanical relays and solid state relays. 4
- 19. Explain any two ways to clean mixer grinder. 4
- 20. (a) Explain any four ways in which you can perform trouble shooting of micro oven. 4

Or

 (b) Explain any four ways to maintain microwave oven. 4
- 21. Write four ways to protect oneself from electrical hazards. 4

2024

Multi Skill Foundation Course (Vocational)

- v) *Write the correct question number in your answer sheet to indicate the option being attempted.*

N.B: *Check to ensure that all pages of the question paper are complete as indicated on the top left side.*

1. Choose the correct answer from the given alternatives: 10x1=10

- i. Mixture of cement, sand and gravels is called
 - (a) mortar
 - (b) concrete
 - (c) ferro-cement
 - (d) RCC
- ii. What is the unit of resistance?
 - (a) Volt
 - (b) Ampere
 - (c) Watt
 - (d) Ohms
- iii. The battery converts which of the following energy into electrical energy?
 - (a) Nuclear
 - (b) Chemical
 - (c) Thermal
 - (d) Mechanical
- iv. The process of collecting, filtering, storing and using rainwater is known as
 - (a) irrigation
 - (b) conservation
 - (c) percolation
 - (d) rainwater harvesting
- v. The method of growing plants without soil is called
 - (a) azolla
 - (b) hydroponic
 - (c) aerobic
 - (d) anaerobic
- vi. Which type of blood cell is called as "soldier of the body"?
 - (a) White Blood Corpuscles
 - (b) Red Blood Corpuscles
 - (c) Thrombocytes
 - (d) Platelets
- vii. What does the word 'Seiri' mean?
 - (a) Sort
 - (b) Shine
 - (c) Standardize
 - (d) Set in order
- viii. According to Howard W. Johnson, which of the following is **not** a basic element of entrepreneur?
 - (a) Invention
 - (b) Innovation
 - (c) Equality
 - (d) Adaptation
- ix. Negative stress is also known as
 - (a) survival stress
 - (b) distress
 - (c) internal stress
 - (d) work stress

- x. How many sustainable development goals were established by the United Nations General Assembly in 2015?
 - (a) 14
 - (b) 15
 - (c) 16
 - (d) 17

Answer the following questions in one word or one sentence:

- 2. Who is an entrepreneur? 1
- 3. Define self-motivation. 1
- 4. Write any one principle of sustainable development. 1
- 5. What is meant by painting? 1
- 6. List any two areas where contour line is used. 1
- 7. Why is rainwater storage important? 1
- 8. Name one method of artificial insemination. 1
- 9. State any two main components of balance diet. 1

Answer the following questions in 20-50 words:

- 10. What is effective communication? List any two C's of effective communication. 1+1=2
- 11. Write four measures to protect computer. 2
- 12. Draw the symbolic representation of the third angle projection method. 2
- 13. What are welding fumes? Write one safety measure for protection against welding fumes. 1+1=2
- 14. Differentiate between direct and alternating current. 2
- 15. What is a pump? Write any two places where it is used. 1+1=2
- 16. What is meant by irrigation? Write about any one type of irrigation. 1+1=2
- 17. What are communicable and non-communicable diseases? 2

Answer the following questions in 60-100 words:

- 18. Write any four characteristics of concrete cement. 4
- 19. What is biogas? State any three advantages of biogas. 1+3=4
- 20. (a) Briefly describe hydroponic fodder production system. 4
- Or**
- (b) State any four importance of nursery.
- 21. (a) Mention the advantages of packaged food. 4
- Or**
- (b) Write any four reasons on the importance of vaccination.

1. Choose the correct answer from the given alternatives: 10x1=10

- i. Which method of land is suitable for undulating land and sandy soil?
 - (a) Sprinkler irrigation
 - (b) Drip irrigation
 - (c) Spray irrigation
 - (d) Subsurface irrigation
- ii. It is a type of micro irrigation equipment which is often used for temperature control in outdoor settings
 - (a) Drippers
 - (b) Sprinklers
 - (c) Foggers
 - (d) Misters
- iii. The most common herbicide used in brinjal is
 - (a) Paraquat
 - (b) Fluchloralin
 - (c) Alachlor
 - (d) Trifluralin
- iv. Which of the following is derived from tobacco plant and is used for repelling insects?
 - (a) Nimbolin
 - (b) Nimbin
 - (c) Pyrethrum
 - (d) Nicotine
- v. Damping off is a disease of
 - (a) Leaves
 - (b) Fruits
 - (c) Seedlings
 - (d) Flowers
- vi. Vegetables crops such as tomatoes, peppers and corn are harvested in
 - (a) Summer season
 - (b) Winter season
 - (c) Spring season
 - (d) Autumn season
- vii. Noise, vibration, heat and other unhealthy climatic conditions are causes of
 - (a) Electrical hazards
 - (b) Mechanical hazards
 - (c) Chemical hazards
 - (d) Physical hazards
- viii. It refers to the movement of the body or its separate parts which may be culture bound
 - (a) Body language
 - (b) Proxemics
 - (c) Kinesics
 - (d) Haptics
- ix. The small pictures on the desktop are called
 - (a) Icons
 - (b) Taskbar
 - (c) Wallpaper
 - (d) Notification area

x. Using eco-friendly materials comes under which of the primary goals of sustainable development?

- (a) Economic growth
- (b) Environmental protection
- (c) Cultural diversity
- (d) Social inclusion

Answer the following questions in one word or one sentence:

- 2. What is a fogger? 1
- 3. What are pre plant herbicides? 1
- 4. Name any two natural enemies to combat pests. 1
- 5. State two fundamental principles of effective communication. 1
- 6. What are maturity indices? 1
- 7. What is hazard? 1
- 8. What is an operating system in a computer? 1
- 9. List any two primary goals of sustainable development. 1

Answer the following questions in 20-50 words:

- 10. What is irrigation? Write one main objective of irrigation system. 1+1=2
- 11. What is biological control of weeds? 2
- 12. Write two differences between broadleaf and grassy weeds. 2
- 13. Write the scientific names of two solanaceous crops and also name two common solanaceous vegetable diseases. 2
- 14. Differentiate between climacteric and non-climacteric vegetables. 2
- 15. What is stress? List two sources of stress in modern times. 1+1=2
- 16. State any two common hazards at vegetable farm with examples. 2
- 17. Who is an entrepreneur? State two characteristics of a successful entrepreneur. 2

Answer the following questions in 60-100 words:

- 18. (a) Briefly explain any four types of micro irrigation system. 4

Or

- (b) Write any two advantages and disadvantages of micro irrigation equipments. (2+2=4)

- 19. (a) What are weeds? Briefly explain the annual, biennial and perennial weeds.

Or

1+3=4

- (b) Explain any four tools and equipments for insect pest and disease management operations. (4)

- 20. What is grading of crops? Write three advantages of grading. 1+3=4

- 21. Explain any four types of hazards that occur in agricultural works. 4

2024

Automotive (Vocational)

Total marks: 50

Time : 2 hours

1. Choose the correct answer from the given alternatives:

10x1=10

- i. Vehicle engines that work on internal combustion engine and electric are called
 - (a) Battery operated engines
 - (b) Hybrid engines
 - (c) Electric engines
 - (d) Air engines
- ii. Which of the following is the outer edge of a wheel that holds the tires and acts as link between the hub and the tyre?
 - (a) Rim
 - (b) Flange
 - (c) Barrel
 - (d) Lug hole
- iii. Which of the following is a measurement unit of pressure?
 - (a) CFM (cubic feet per min)
 - (b) Pounds per square inch (PSI)
 - (c) Horse power
 - (d) Watts
- iv. Who is the first point of contact between customer and the dealership in an automobile shop?
 - (a) Automobile engineer
 - (b) Automobile technician
 - (c) Automobile shopkeeper
 - (d) Automobile salesperson
- v. To ensure that the vehicle remains at optimal operating temperature, the vehicle relies on a fluid called
 - (a) Petrol
 - (b) Brake oil
 - (c) Coolant
 - (d) Gear oil
- vi. The opposite side of the face of a hammer is called
 - (a) Cheek
 - (b) Neck
 - (c) Face
 - (d) Peen
- vii. ABS stands for
 - (a) Active braking system
 - (b) Artificial braking system
 - (c) Autonomous braking system
 - (d) Anti lock braking system
- viii. It refers to the language that has been used in a message
 - (a) Content
 - (b) Process
 - (c) Context
 - (d) Information
- ix. The ability to work on more than one thing at a time and complete each of them with required proficiency is known as
 - (a) Organisational skill
 - (b) Negotiating skill
 - (c) Multi tasking ability
 - (d) Adaptability

- x. The United Nations Sustainable Development Summit 2015 set certain global development goals known as
 - (a) Agenda 2015
 - (b) Agenda 2020
 - (c) Agenda 2025
 - (d) Agenda 2030

Answer the following questions in one word or one sentence:

- 2. List the two types of chassis. 1
- 3. What is a screwdriver? 1
- 4. Mention any two C's of effective communication. 1
- 5. Name two types of engine oil. 1
- 6. What is customer service? 1
- 7. Write two benefits of using electric cars. 1
- 8. What is stress? 1
- 9. Define sustainable development. 1

Answer the following questions in 20-50 words:

- 10. What is live axle and dead axle? 2
- 11. Write the formula for least count of vernier calliper. 2
- 12. Write four reasons for the need to change engine oil. 2
- 13. List any two duties of automobile salesperson. 2
- 14. What is stop and start technology? Why is it useful? 1+1=2
- 15. What is the function of clutch and gearbox? 2
- 16. What is start up India scheme? 2
- 17. What is operating system in computer? Mention any two operating systems. 1+1=2

Answer the following questions in 60-100 words:

- 18. (a) What is a wheel? Name any three parts of the wheel and write their functions. 1+3=4

Or

 - (b) What is an engine? Name any three components of internal combustion engine and write their functions.
- 19. (a) Explain four types of hammers. 4

Or

 - (b) Explain the procedures of adding coolant.
- 20. Explain any four qualities of good customer service in automotive workshop. 4
 - 21. Explain four key components of hybrid electric cars. 4

**2024
SCIENCE**

- ii) *The question paper consists of 23 questions in 4 Sections. Marks allocated to every question are indicated against it.*
- iii) *All questions are compulsory in 1 and 2 marks questions (Section A and B).*
- iv) *Internal choice is given in 3 and 5 marks questions (Section C and D). A student has to attempt only one of the alternatives in such questions.*
- v) *General choice is given in 5 marks questions. A student has to attempt only 4 questions from this Section-D.*
- vi) *Alternate questions for the visually impaired students are provided in some questions. **Only the visually impaired students have to attempt such alternate questions.***
- vii) *Write the correct question number in your answer sheet to indicate the option being attempted.*

N.B: *Check to ensure that all pages of the question paper are complete as indicated on the top left side.*

SECTION - A**1. Choose the correct answer from the given alternatives:**

- (i) The given reaction is an example of 1
$$\text{Na}_2\text{SO}_4 + \text{BaCl}_2 \rightarrow \text{BaSO}_4 + 2\text{NaCl}$$

(a) combination reaction	(b) double displacement reaction
(c) decomposition reaction	(d) displacement reaction
- (ii) Butanol is a four-carbon compound with the functional group 1

(a) -CHO	(b) -COOH
(c) -COO-	(d) -OH
- (iii) What is the name of the compound- $\text{CH}_3\text{CH}_2\text{COOH}$? 1

(a) Ethanal	(b) Propanoic acid
(c) Ethanoic acid	(d) Propanol
- (iv) Which part of the human alimentary canal receives bile from the liver? 1

(a) Stomach	(b) Small intestine
(c) Large intestine	(d) Oesophagus
- (v) At synapse, chemical signal is transmitted from 1

(a) dendritic end of one neuron to axonal end of another neuron
(b) axon to cell body of same neuron
(c) cell body to axonal end of same neuron
(d) axonal end of one neuron to dendritic end of another neuron

(vi) In the given figure, the parts A, B & C are sequentially 1

- | | |
|----------------------------------|----------------------------------|
| (a) cotyledon, plumule & radicle | (b) plumule, radicle & cotyledon |
| (c) plumule, cotyledon & radicle | (d) radicle, cotyledon & plumule |

(vii) In human females, an event that marks the onset of reproductive phase is 1

- | | |
|---------------------|---------------------------------|
| (a) growth of body | (b) changes in the hair pattern |
| (c) change in voice | (d) menstruation |

(viii) In human males, all the chromosomes are paired perfectly except one. These unpaired chromosomes are 1

- | | |
|-------------------------|------------------------|
| (i) large chromosomes | (ii) small chromosomes |
| (iii) y chromosomes | (iv) x chromosomes |
| (a) both (i) and (ii) | (b) both (i) and (iii) |
| (c) both (iii) and (iv) | (d) both (ii) and (iv) |

(ix) In peas, a pure tall plant (TT) is crossed with a short plant (tt). The ratio of pure tall plants to short plants in F₂ is 1

- | | |
|---------|---------|
| (a) 1:3 | (b) 3:1 |
| (c) 1:1 | (d) 2:1 |

(x) The human eye forms the image of an object at the 1

- | | |
|------------|------------|
| (a) retina | (b) iris |
| (c) pupil | (d) cornea |

(xi) The apparent flattening of the sun's disc at sunset is due to the phenomenon of 1

- | | |
|----------------|--------------------|
| (a) reflection | (b) refraction |
| (c) dispersion | (d) tyndall effect |

(xii) An electron enters a magnetic field at right angle to it as shown in the figure. The direction of force acting on the electron will be 1

- | | |
|-------------------|-----------------|
| (a) to the right | (b) to the left |
| (c) into the page | (d) out of page |

(xiii) What is the shape of the magnetic field lines at the centre of a circular loop? 1

- | | |
|--------------|--------------|
| (a) Curve | (b) Parabola |
| (c) Straight | (d) Circular |

- (xiv) In a food chain, the third trophic level is always occupied by 1
 (a) producers (b) herbivores
 (c) decomposers (d) carnivores
- (xv) Disposable plastic plates should not be used because they are made of 1
 (a) light weight materials (b) non-biodegradable materials
 (c) bio-degradable materials (d) non-toxic materials

SECTION - B

Answer the following questions in about 20-30 words:

2. If we take hydrochloric acid (HCl) and acetic acid (CH₃COOH) of the same concentration of 1 molar; HCl is found to be a strong acid and CH₃COOH is found to be a weak acid. Give reason. 2
3. Why does calcium start floating when added to water? Write the reaction of calcium with water. 2
4. Write the formula and draw the structure of benzene. 2
5. How are lungs designed to maximize area for exchange of gases in human beings? 2
6. What is chemotropism? Give one example. 2
7. Magnetic field lines around a bar magnet are shown in the figure. Lanu makes a statement that; magnetic field at point A is stronger than at point B. State whether the statement is correct. Explain why? 2

SECTION - C

Answer the following questions in about 40-60 words:

8. a. Balance the following chemical equations:
 (i) $\text{Fe} + \text{H}_2\text{O} \rightarrow \text{Fe}_3\text{O}_4 + \text{H}_2$
 (ii) $\text{Pb}(\text{NO}_3)_2 \rightarrow 2\text{PbO} + \text{NO}_2 + \text{O}_2$
 (iii) $\text{NaOH} + \text{H}_2\text{SO}_4 \rightarrow \text{Na}_2\text{SO}_4 + \text{H}_2\text{O}$ 3×1=3
- Or**
- b. What is oxidation-reduction reaction? Give one example. (2+1=3)

9. In the following experiment, what will happen if we add?

- (i) HCl solution in the beaker and switch on the current.
 (ii) Glucose ($C_6H_{12}O_6$) solution in the beaker and switch on the current.
 (iii) What conclusion can be drawn from the above experiment? **3×1=3**

Alternate question for the visually impaired students:

What is chlor-alkali process? Name two products formed by this process. **(1+2=3)**

10. a. Draw the electron dot structure of a molecule with single, double and triple covalent bond.

Or **3×1=3**

- b. Draw the structural isomers of pentane (C_5H_{12}).

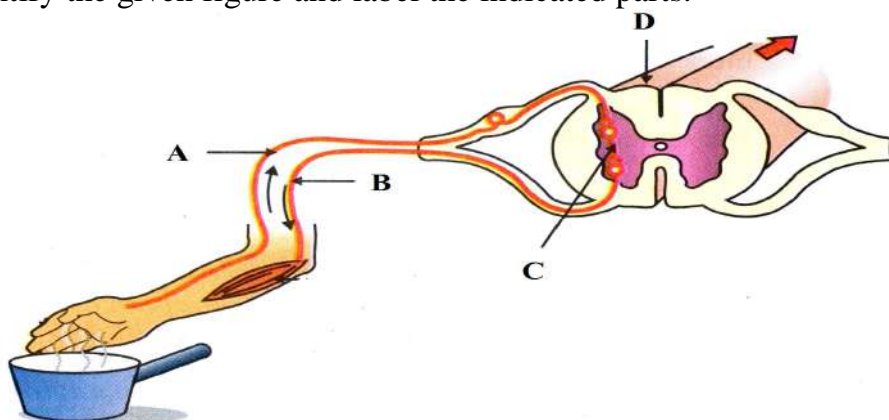

Alternate question for the visually impaired students:

Explain three chemical properties of carbon compounds. **(3×1=3)**

11. a. Draw the structure of a neuron and label any four parts.

Or **1+4×½=3**

- b. Identify the given figure and label the indicated parts.

Alternate question for the visually impaired students:

Compare and contrast the nervous and hormonal mechanism for control and co-ordination in animals. **(3)**

12. How do Mendel's experiments show that traits may be dominant or recessive? What will be the F_1 progeny if a tall plant with round seeds is crossed with short plant with wrinkled seeds? **2+1=3**

13. **a.** The image below shows a thin lens of focal length 5m.
 (i) What is the kind of lens shown in the figure below?
 (ii) If a real inverted image is to be formed by this lens at a distance of 7m from the optical centre, then show with calculation where should the object be placed?

Or

3

- b.** An object 4cm in size is placed at 25cm in front of a concave mirror of focal length 15cm. At what distance from the mirror should a screen be placed in order to obtain a sharp image? Find the nature and size of the image.

Alternate question for the visually impaired students:

- (i) State the difference between Pole and Centre of curvature of a spherical mirror.
 (ii) In which type of mirror does the centre of curvature lie behind the mirror? **(2+1=3)**

14. Define power of accommodation. How does it help us to see nearby and far away objects? **1+2=3**

15. **a.** The potential difference between terminals of an electric heater is 60V when it draws a current of 4A from the source. What current will the heater draw if the potential difference is increased to 120V?

Or

3

- b.** Show with calculation how can three resistors of resistances 2Ω , 3Ω and 6Ω be connected to give a total resistance of (i) 4Ω and (ii) 1Ω ?

Alternate question for the visually impaired students:

State Ohm's Law and express it mathematically. **(2+1=3)**

16. (i) Will current flow more easily through a thick wire of same material when connected to same source? Explain.
 (ii) Why does the cord of an electric heater not glow while heating element does? **1+2=3**

17. What precautions should be taken to avoid the overloading of domestic circuit?
Give three points. 3
18. Study the food chain given below and answer the questions that follow:

- (i) If the amount of energy available at the third trophic level is 100 Joules, then how much energy will be available at the producer level? Justify your answer.
- (ii) Is it possible to have two more trophic levels in this food chain? Justify your answer. 2+1=3

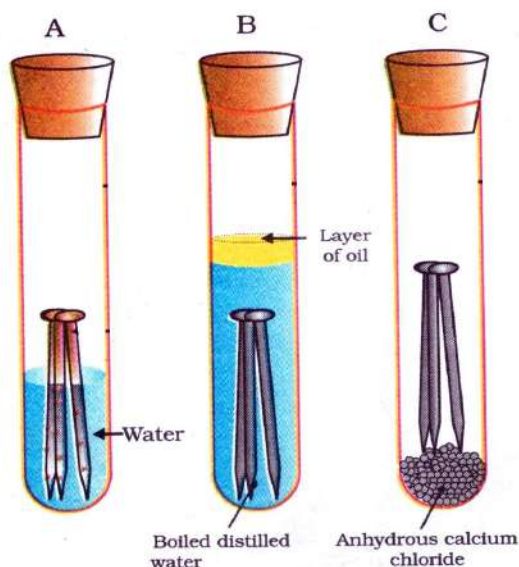

Alternate question for the visually impaired students:

What is ozone? Explain how it is formed. (1+2=3)

SECTION - D

Answer any 4 questions from the following questions (19 to 23) in about 70-100 words:

19. Abulie conducted an experiment to investigate the condition under which iron rust. He took three test tubes and placed clean iron nails in each of them, as shown in the figure.
- In test tube A, he put water.
 - In test tube B, he put boiled distilled water and a layer of oil.
 - In test tube C, he put anhydrous calcium chloride.

- (i) In which of the following test tubes, the rusting of iron nails took place. Give reason.
- (ii) In which of the test tubes, the rusting of iron nails did not take place. Give reason. 2+3=5

Alternate question for the visually impaired students:

Explain five ways to prevent rusting of iron. (5×1=5)

20. Explain the human excretory system with a neat labelled diagram. 3+2=5

Alternate question for the visually impaired students:

Name the components of the excretory system in human beings. Give one function of each. (5)

21. Describe the various pathways involved in breaking down of glucose molecule. 5

22. a. Draw a labelled diagram of the longitudinal section of a flower and explain the male and female reproductive parts.

Or 2+3=5

b. Draw and explain the female reproductive system in humans.

Alternate question for the visually impaired students:

Explain any two mode of reproduction by a single cell organism. (2½+2½=5)

23. a. Draw a ray diagram of an image formation by a concave mirror, when object is placed : (i) beyond C (ii) between P and F.
Write the nature and position of the image formed in both the cases.

Or 1½+1½+2=5

b. Draw a ray diagram of an image formation by a convex lens, when the object is placed : (i) between F₁ and 2F₁ (ii) between F₁ and optical centre.
Write the nature and position of the image formed in both the cases.

Alternate question for the visually impaired students:

- (i) A lemon appears larger when immersed in a glass of water. Explain why.
- (ii) How does light ray bent as it goes from rarer to denser medium?
- (iii) As light enters through a glass slab, the emergent ray is parallel to incident ray. Why?
- (iv) What is refraction of light? (1+1+2+1=5)

- (iv) *Write the correct question number in your answer sheet to indicate the option being attempted*

N.B. : Check to ensure that all pages of the question paper is complete as indicated on the top left side.

বিভাগ – ‘ক’ পাঠ (Reading)

1. নিচের পাঠটি মনোযোগ দিয়ে পড় :

আনন্দবাজার অনলাইন ডেস্ক :বেঙ্গালুরু: শেষ আপডেট: ৩০ অগস্ট ২০২৩ ১৪:৩১

চাঁদে এক সপ্তাহ কাটিয়ে ফেলল চন্দ্রযান-৩-এর রোভার প্রজ্ঞানা। তার হাতে বাকি আরও এক সপ্তাহ। এর মাঝে ‘অভিযানের সেরা ছবি’ উঠেছে প্রজ্ঞানের ক্যামেরায়। বুধবার টুইটে সেই ছবি প্রকাশ করেছে ইসরো। সেই ছবিতে আসলে ক্যামেরাবন্দি হয়েছে ইসরোর ল্যান্ডার বিক্রম।

ইসরো টুইটে জানিয়েছে, বুধবার সকালেই বিক্রমের একটি ছবি তুলেছে প্রজ্ঞানা। একে ‘অভিযানের সেরা ছবি’ (ইমেজ অফ দ্য মিশন) তকমা দিয়েছেন বিজ্ঞানীরা। ছবিটি উঠেছে রোভারের নেভিগেশন ক্যামেরাতে।

ইসরো জানিয়েছে, এই নেভিগেশন ক্যামেরাটি বিশেষ ভাবে চন্দ্রযান-৩-এর জন্যই তৈরি করা হয়েছে। এই ক্যামেরা তৈরি হয়েছে ইলেকট্রো-অপটিক্স সিস্টেমের গবেষণাগারে।

প্রজ্ঞানের ক্যামেরায় তোলা বিক্রমের ছবিতে দেখা যাচ্ছে, চাঁদের অমসৃণ মাটিতে কয়েক হাত দূরে দাঁড়িয়ে রয়েছে ল্যান্ডারটি। ছবিটি বড় করে ইসরো দেখিয়েছে, ল্যান্ডারের নীচে চ্যাস্ট এবং ইলসা

পেলোডদু'টিকেও দেখা যাচ্ছে। পৃথিবীর সময় অনুযায়ী, বুধবার সকাল ৭টা ৩৫ মিনিটে এই ছবিটি তোলা হয়েছে।

এর আগে মঙ্গলবার সন্ধ্যায় ইসরো টুইট করে জানিয়েছিল, চাঁদের দক্ষিণ মেরুর মাটিতে সালফারের উপস্থিতির প্রমাণ পেয়েছে রোভার প্রজ্ঞানা এ ছাড়াও মিলেছে অ্যালুমিনিয়াম, ক্যালসিয়াম, লোহা, ক্রোমিয়াম, টাইটেনিয়াম, ম্যাঙ্গানিজ, সিলিকন, অক্সিজেনের অস্তিত্ব। ইসরো জানিয়েছিল, হাইড্রোজেনের খোঁজ চলছে চাঁদের ওই অঞ্চলে। প্রজ্ঞানে রয়েছে লেজার-ইনডিউসড ব্রেকডাউন স্পেক্ট্রোস্কোপ (এলআইবিএস)। নমুনা সংগ্রহ করে তা লেজার প্রযুক্তির মাধ্যমে পরীক্ষা করে এই প্রযুক্তি। এটিও ইলেকট্রো-অপটিক্স সিস্টেমের গবেষণাগারে তৈরি করা হয়েছে।

গত বুধবার সন্ধ্যা ৬টা ৪ মিনিটে চাঁদের দক্ষিণ মেরুর কাছে নেমেছিল চন্দ্রযান-৩-এর ল্যান্ডার। পরের দিন ভোরে ইসরো জানায়, ল্যান্ডারের পেট থেকে সফল ভাবে বেরিয়েছে রোভার প্রজ্ঞানা। সেটি ঘুরে ঘুরে চাঁদের মাটিতে অনুসন্ধান চালাচ্ছে। ছ'চাকা বিশিষ্ট এই রোভারের গতি সেকেন্ডে এক সেন্টিমিটার মাত্র। ১৪ দিন অর্থাৎ এক চন্দ্রদিবস পর্যন্তই তার আয়ু। চাঁদে সূর্য ডুবে গেলে আর এই যন্ত্র কাজ করবে না।

নির্দেশ অনুসারে নিচের প্রশ্নগুলির উত্তর দাও :

- | | | |
|-------|---|------------------|
| (ক) | খবরটি কবে প্রকাশিত হয়েছে? | 1 |
| (i) | ৩০ শে আগস্ট | (ii) ৩১ শে আগস্ট |
| (iii) | ১ লা সেপ্টেম্বর | (iv) ২রা অক্টোবর |
| (খ) | চন্দ্রযান-৩ এর নাম কী? | 1 |
| (i) | প্রজ্ঞানা | (ii) বিজ্ঞান |
| (iii) | প্রতিভা | (iv) পৃথ্বী |
| (গ) | বিক্রম কী? | 1 |
| (i) | ল্যাণ্ডার | (ii) রকেট |
| (iii) | চন্দ্রযান | (iv) স্যাটেলাইট |
| (ঘ) | কাকে অভিযানের সেরা ছবির তকমা দেওয়া হয়েছে? যে ক্যামেরায় ছবিটি তোলা হয়েছে, সেটি কোথায় তৈরি করা হয়েছে? | 1+1=2 |
| (ঙ) | ছবিটি কোন বারে তোলা হয়েছে? | 1 |

- | | | |
|---|---------------|---|
| (i) সোমবার | (ii) মঙ্গলবার | |
| (iii) বুধবার | (iv) শুক্রবার | |
| (চ) রোভারটির আয়ু কতদিন? | | 1 |
| (i) দশ দিন | (ii) বারো দিন | |
| (iii) চোদ্দ দিন | (iv) এক মাস | |
| (ছ) ব্যাসবাক্য সহ সমাস নির্ণয় করো : গবেষণাগার | | 1 |
| (জ) চাঁদের দক্ষিণমেরুর মাটিতে কোন কোন জিনিসের অস্তিত্ব পাওয়া গেছে? | | 2 |

বিভাগ – ‘খ’

রচনা ও নির্মিতি (Writing and Composition)

2. নিচের যে কোনও একটি বিষয় বেছে নিয়ে ১০০ থেকে ১৫০ টি শব্দের মধ্যে উত্তর দাও :

- (ক) তুমি ৭/১ পল্লি, ক্লাব রোড, হায়েদ্রাবাদ-১৩-র বাসিন্দা রোহিত/ মেঘা। তোমাদের এলাকায় সরবরাহি জলের কলে বিগত কয়েকদিন ধরে অপরিষ্কৃত ও অপরিষ্কৃত জল সরবরাহ করা হচ্ছে, সেই বিষয়ে অভিযোগ জানিয়ে ‘দ্য হায়েদ্রাবাদ টাইমস্’- এর সংবাদপত্রের সম্পাদককে পোস্ট বক্স ৩৫০, হায়েদ্রাবাদ- ১ – এই ঠিকানায় একটি চিঠি লেখো।

6

অথবা

- (খ) তুমি গুয়াহাটি আসাম উপত্যকা উচ্চ বিদ্যালয়ের পরিবেশবান্ধব ক্লাবের ছাত্র সম্পাদক আদিত্য / সপ্তপর্ণা, গত ২৬শে জানুয়ারি তোমাদের বিদ্যালয়ে উক্ত ক্লাবের উদ্যোগে একটি স্বেচ্ছায় রক্তদান শিবিরের আয়োজন করা হয়েছিল, সেই বিষয়ে একটি প্রতিবেদন রচনা করো।

3. ন্যূনাধিক ৪০ থেকে ৫০ টি শব্দে নিচের যে কোনও একটি প্রশ্নের উত্তর দাও :

- (ক) তুমি কাটিহার রেলওয়ে স্কুলের সাংস্কৃতিক বিভাগের শিক্ষার্থী সম্পাদক নির্মল/ নম্রতা, তোমাদের স্কুলের ‘স্বাধীনতা দিবস’ উপলক্ষে আয়োজিত একটি সাংস্কৃতিক অনুষ্ঠানের একটি আমন্ত্রনপত্র লেখো।

4

অথবা

- (খ) বর্তমান প্রজন্মের অতিরিক্ত সামাজিক মাধ্যমের প্রতি আসক্তি নিয়ে দুই বন্ধু সাহিল ও জাহিদা-র মধ্যে কাল্পনিক সংলাপ লিপিবদ্ধ করো।

বিভাগ – ‘গ’

ব্যাকরণ ও অনুবাদ (Grammar & Translation)

4. নিচের বিকল্পগুলির থেকে সঠিক উত্তরটি বেছে নাও :

- (ক) একাধিক পদ মিলে গঠিত হয় — 1
- | | |
|---------------|------------------|
| (i) সমস্তপদ | (ii) সমস্যমান পদ |
| (iii) পূর্বপদ | (iv) উত্তরপদ |
- (খ) বাচ্য কত প্রকার? 1
- | | |
|-----------|----------|
| (i) দুই | (ii) তিন |
| (iii) চার | (iv) ছয় |
- (গ) ভাঁড়ে মা ভবানী মানে – 1
- | | |
|-----------------------|-------------------------|
| (i) শূন্য ভাণ্ডার | (ii) মা দুর্গার ভাণ্ডার |
| (iii) দশকর্মা ভাণ্ডার | (iv) লক্ষ্মীর ভাণ্ডার |
- (ঘ) ‘জয়সূচক উৎসব’ কে এককথায় বলে — 1
- | | |
|---------------|----------------|
| (i) জয়ন্তী | (ii) জিন্দাবাদ |
| (iii) জয়গুরু | (iv) সঞ্জয় |
- (ঙ) ‘রাজপথ’ – এই সমস্তপদটির ব্যাসবাক্য হবে — 1
- | | |
|-----------------|-----------------------|
| (i) রাজার পথ | (ii) রাজা নির্মিতি পথ |
| (iii) রাজা ও পথ | (iv) পথের রাজা |

5. বাচ্য নির্ণয় করো :

- | | |
|---------------------------|---|
| (i) কাজটা ভালো দেখায় না। | 1 |
| (ii) কী বিপদেই পড়া গেল! | 1 |
| (iii) আমরা পেকে গেছে? | 1 |

6. এক কথায় প্রকাশ করো :

- | | |
|---------------------|---|
| (i) চৈত্র মাসের ফসল | 1 |
| (ii) জানবার ইচ্ছা | 1 |

7. ব্যাসবাক্য সহ সমাস নির্ণয় করো :

- | | |
|--------------|---|
| (i) পীতাম্বর | 1 |
|--------------|---|

- (ii) অগ্রজ 1
- (iii) পাঁচফোড়ন 1
8. সার্থক বাক্যে প্রয়োগ করো :
- (i) সাত খুন মাপ 1
- (ii) হিতে বিপরীত 1
9. বাংলায় অনুবাদ করো :
- (i) What a beautiful house you have! 1
- (ii) He spoke very softly. 1
- (iii) No need to worry. 1
- (iv) Who broke the window? 1
- (v) Why are you absent-minded? 1

বিভাগ – ‘ঘ’

সাহিত্য – গদ্যাংশ ও পদ্যাংশ (Literature)

10. নিচের বিকল্পগুলির থেকে সঠিক উত্তরটি বেছে নাও :
- (ক) পরাগ মণ্ডল কে ছিল? 1
- (i) জমিদার (ii) কৃষক
- (iii) মহাজন (iv) গোমস্তা
- (খ) ‘অদ্ভুত আঁধার এক’ কবিতাটি কোন কাব্যগ্রন্থের অন্তর্গত? 1
- (i) বরাপালখ (ii) মনবিহঙ্গম
- (iii) রূপসী বাংলা (iv) ধূসর পাণ্ডুলিপি
- (গ) ‘বান’ গল্পে কোন পূজোর কথা আছে? 1
- (i) মনসা পূজো (ii) গঙ্গা পূজো
- (iii) রান্না পূজো (iv) দুর্গা পূজো
- (ঘ) ‘বাবরের প্রার্থনা’ কবিতায় কার জীবনের প্রার্থনা করা হয়েছে? 1
- (i) বাবরের (ii) হুমায়ূনের
- (iii) সেলিমের (iv) খুরমের

- (ঙ) অভাগীর স্বামীর নাম কী? 1
- (i) রসিক বাঘ (ii) অধর রায়
- (iii) ঈশ্বর নাপিত (iv) ঠাকুরদাস

২০-২৫ টি শব্দে নিচের যে কোনও ছ'টি প্রশ্নের উত্তর দাও :

11. “বাজারে দুদ সস্তা হলো।”— কোন পাঠের অংশ? দুধ সস্তা হল কেন? 1+1 =2
12. কালকেতুর ছোট গ্রাসকে কীসের সাথে তুলনা করা হয়েছে? খাওয়ার সময় তার গলা দিয়ে কেমন শব্দ হত? 1+1 =2
13. “পরাগ মণ্ডল আপনাকে শালা বলিয়াছো” – কে কখন এই অভিযোগ করতো? 2
14. ‘বলাই’ পাঠ অনুসারে বস্তুত আমরা কোন পদার্থকে মানুষ বলে থাকি? 2
15. কবি বলরাম দাস কার ভক্ত ছিলেন? তাঁর রচিত পদ কোন গ্রন্থে স্থান পেয়েছে? 1+1 =2
16. “কিন্তু গৌরাজ্ঞ এলেন না।” – গৌরাজ্ঞ কোথায় এলেন না? কেন এলেন না? 1+1 =2
17. তরু কীসের জন্যে কান পেতে ছিল? তরু কীভাবে তার ভাষা ব্যক্ত করত? (1+1 =2)

কম – বেশি ৪০ থেকে ৫০ টি শব্দে নিচের যে কোনও দু'টি প্রশ্নের উত্তর দাও :

18. “– মনে হইল না এ কোন শোকের ব্যাপার —”
- (i) কোন পাঠের অংশ? 1
- (ii) লেখকের নাম কী? 1
- (iii) কোন প্রসঙ্গে এ কথা বলা হয়েছে? 2
19. “তার মাঝে নবঘনশ্যাম।।” –
- (i) কোন কবিতার অংশ? (1)
- (ii) নবঘনশ্যাম বলতে কাকে বোঝানো হয়েছে? (1)
- (iii) কাদের মাঝে কখন নবঘনশ্যাম ছিলেন? (2)
20. “অন্ধুত আঁধার এক এসেছে এ পৃথিবীতে আজ,” –
- (i) কোন কবিতার অংশ? 1
- (ii) আঁধার ‘অন্ধুত’ কেন? 1
- (iii) অন্ধুত আঁধারে কী কী পরিলক্ষিত হচ্ছে? 2

প্রায় ৬০-৯০ টি শব্দে নিচের প্রশ্নগুলির উত্তর দাও :

21. (ক) “দূর হৈতে ফুল্লরা বীরের পাল্য সাড়া” —
- (i) কোন পাঠের অংশ? 1
- (ii) কবির নাম কী? 1
- (iii) কোন মূল কাব্যগ্রন্থ থেকে সংকলিত? 1
- (iv) ‘বীর’ বলতে কাকে বোঝানো হয়েছে? 1
- (v) বীরের সাড়া পেয়ে ফুল্লরা কী করেছিল? 1
- অথবা**
- (খ) “আমারই বর্বর জয়ের উল্লাসে
মৃত্যু ডেকে আনি নিজের ঘরে?” –
- (i) কোন কবিতার অংশ? (1)
- (ii) কে এই প্রশ্ন করেছেন? (1)
- (iii) কাকে এই প্রশ্ন করেছেন? (1)
- (iv) কখন ও কেন বক্তার এরকম মনে হয়েছে? (2)
22. (ক) “এর দাম বিশ ঘা জুতো” –
- (i) কোন পাঠের অংশ? 1
- (ii) লেখকের নাম কী? 1
- (iii) কে বলেছে? 1
- (iv) কাকে উদ্দেশ্য করে বলেছে? 1
- (v) কীসের দাম বিশ ঘা জুতো? 1
- অথবা**
- (খ) “তাদের সঙ্গে ওর কী যে একটা বয়স্য ভাব তা ও কেমন করে প্রকাশ করবে?
- (i) কোন পাঠের অংশ? (1)
- (ii) এখানে ‘তাদের’ বলতে কাদের বোঝানো হয়েছে? (1)
- (iii) ‘ওর’ই বা কে? (1)
- (iv) ‘তাদের’ ও ‘ওর’ চিরকালের সম্পর্কটা কী তা আলোচনা করা। (2)
23. ‘জগদীশচন্দ্র’ কবিতাটির নামকরণের সার্থকতা বিচার করো। 5

General instructions:

- i) *Approximately 15 minutes is allotted to read the question paper and revise the answers*
- ii) *The question paper consists of 21 questions.*
- iii) *Internal choice has been provided in some questions.*
- iv) *Write the correct question number in your answer sheet to indicate the option being attempted.*

N.B: *Check that all pages of the question paper are complete as indicated on the top left side.*

Unit – I (Reading)

1. Read the passage and answer the questions that follow:

Mud is a gorilla who lives in a cage at a mall. He has spent twenty-seven years either living in a human home or at the mall.

I was born in a place humans call Central Africa, in a dense rainforest so beautiful no crayons could ever do it justice. Gorillas do not name their newborns right away, the way humans do. We get to know our babies first. We wait to see hints of what might yet be. When they saw how much she loved to chase me around the forest, my parents decided on my twin sister's name – Tag.

Oh, how I loved to play tag with my sister! She was nimble, but when I got too close, she would leap on to my unsuspecting father. Then I would join her and we would bounce on his belly, until he gave us the grunt, a sound that meant, 'Enough!' That game never got old although my father might have disagreed.

It did not take long for my parents to find my name. All day long, I made picture. I drew on rocks and bark and my poor mother's back. I used sap from leaves. I used the juice from fruits. But mostly, I used mud. And that is what they called me- Mud.

To a human, Mud might not sound like much. But to me, it was everything.

On the basis of your reading of the passage, answer the following questions:

a. How did Mud get his name? **2**

Choose the correct option from the alternatives given: **3x1=3**

- b. Why was Mud's twin sister named as Tag?
 - i. Because he loved playing with his sister.
 - ii. Because she loved to chase Mud.
 - iii. Because she picked the name herself.
 - iv. Their father disagrees with any other name.
- c. Why do gorillas not name their babies right away?
 - i. They wait to get to know their babies first.
 - ii. They don't name their babies.
 - iii. Their babies choose their own names.
 - iv. They have to perform a ceremony to be named.

- d. Which among the words is a synonym of the word 'grunt'?
- i. Whisper
 - ii. Scream
 - iii. Laughter
 - iv. Grumble

2. **Read the poem and answer the questions that follow:**

If you can't be a pine on the top of the hill
Be a scrub in the valley- but be
The best little scrub by the side of the rill;
Be a bush if you can't be a tree.

If you can't be a bush be a bit of a grass,
And some highway happy make;
If you can't be a muskie then just be a bass-
But the liveliest bass in the lake.

We can't all be captains, we've got to be crew
There's something for all of us here,
There's big work to do, and there's lesser to do
And the task you must do is the near.

If you can't be a highway then just be a trail
If you can't be the sun be a star;
It isn't by size that you win or you fail-
Be the best of whatever you are! (Douglas Mallock)

On the basis of your reading of the poem, choose the correct answer: **3x1=3**

- a. What is the poet's tone in the poem?
 - i. Religious
 - ii. Optimistic
 - iii. Melancholic
 - iv. Desperate
- b. What does the poet want us to be in whatever job/work we do?
 - i. The laziest
 - ii. The earliest
 - iii. The most honest
 - iv. The best
- c. What should you be if you can't be a tree?
 - i. Branch
 - ii. Hill
 - iii. Flower
 - iv. Bush

Write true or false: **4x $\frac{1}{2}$ =2**

- d. The poet says if you can't be a pine on the hill, you can be a highway.
- e. We should be a star if we can't be the sun.
- f. The poet says everyone can be captains without crew.
- g. Size cannot decide our victory but being the best we can be.

Unit– II (Writing and Applied Grammar)

3. a. Complete the story in about 150-200 words following the starter line given below.
One evening while Kuvieo was at the library..... **6**

Or

- b. Teenagers waste most of their time on Facebook and other social networking sites. Parents today are worried a lot due to this as their children's studies and other activities get neglected. Write an article in about 150-200 words on the topic, "*Advantages and Disadvantages of Social Networking Sites*".
4. a. Write a dialogue in about 100-150 words between two friends discussing who is more useful to society- a doctor or a teacher/ a policeman or a lawyer (choose any one).

Or

- b. Write a report in about 150-200 words on the Cultural Day programme which was organized by your school. **6**

5. **Fill in the blanks with the correct Degree of Comparison:** **2x1=2**
a. The route was _____ (long) than we had expected.
b. Shuni is the _____ (young) among her siblings.

6. **Choose the best preposition to complete the passage:** **2x1=2**
Kevi bought many books and kept them in the library. Many visitors come to borrow the books _____ (with/from/for) his library. He keeps his favorite books _____ (at/behind/from) the wooden shelf.

7. **Rewrite the sentences as directed:** **2x1=2**
a. Ruli is honest. Ruli is hardworking. (Use an appropriate Conjunction to join the sentences)
b. She looks as if she is sick. (Underline the Adverb Clause)

8. **Change the voice:** **2x1=2**
a. Vinito is flying a kite.
b. The chief guest was welcomed by the villagers.

Unit – III (Literature)

9. **Choose the correct answer from the alternatives given:** **10x1=10**
i. Why did Pasteur release the crazed dog's saliva into a sterile test-tube?
a. He did not want to mix the rabies microbes with other germs.
b. He did not want the rabies microbes to escape.
c. He did not want the poisonous saliva to touch his skin.
d. He did not want the rabies microbes to reproduce.

- ii. What sign is the laughter of the old people?
- a. Triumph over death
 - b. Triumph over life
 - c. Triumph over pain
 - d. Triumph over sadness
- iii. What according to Anne Frank does she lack?
- a. Admirers
 - b. A loving family
 - c. One true friend
 - d. A pet dog
- iv. “*Old and young, we dream of graves and monuments.*” Who said this? (*The Ambitious Guest*)
- a. The grandmother
 - b. The daughter
 - c. The young man
 - d. The landlord
- v. ‘*Without thee what is all the morning’s wealth?*’ Who is ‘*thee*’ here. (*To Sleep*)
- a. Mother
 - b. Sleep
 - c. Nature
 - d. Cuckoo
- vi. What does the poet want to see in her broken land?
- a. High handedness
 - b. Sovereignty
 - c. The beauty of Christ
 - d. AK forty sevens
- vii. What do Toshi and the village kids do long after the vehicle had gone?
- a. Sit around some place and recount the whole incident.
 - b. Sniff the vehicle exhaust together.
 - c. Throw pebbles at the apes.
 - d. Go home and sleep.
- viii. Why are the fishes in Vancouver full of cancer? (Speech by Severn Suzuki)
- a. Global warming.
 - b. Excessive usage of water.
 - c. Dumping of industrial waste into lakes.
 - d. Polluted air from industries.
- ix. On Anne’s 14th birthday, who composed a lovely poem?
- a. Margot
 - b. Miep
 - c. Peter
 - d. Otto Frank
- x. Who provided motor power by galloping along behind the trolley?
- a. The driver
 - b. The mechanic
 - c. The ward boy
 - d. Dr. Barnard

Answer the following questions in about 20-25 words: 5x2=10

10. What does the father wish to let people know him as after his death? (*The Ambitious Guest*)
11. Why does the poet address sleep as mother in the poem, 'To Sleep'?
12. Why does the poet think that he has come to the end of his voyage? (*Closed Path*)
13. Why does Anne feel such a strong need to start writing a diary? (*The Diary of a Young Girl*)
14. Why does Anne Frank say that nature is the best medicine for all her trouble? (*The Diary of a Young Girl*)

Answer the following questions in about 40-45 words: 5x4=20

- 15.a. 'In Canada we lived a privileged life...' (*Speech by Severn Suzuki*)
 - i. What sort of privileged life do the children in Canada enjoy? (2)
 - ii. How do the children living in Brazil and Somalia suffer as narrated by Severn Suzuki? (2)

Or

- b. 'I thought that my voyage had come to its end
At the last limit of my power, that the path before me was closed,' (*Closed Path*)
 - i. What voyage is the poet talking about? (1)
 - ii. Why was he thinking so? (2)
 - iii. What do you think he started doing next? (1)
16. a. 'There's been a break-in! Peter went down to the warehouse this morning and noticed at once that the warehouse door was open.' (*Diary of a Young Girl*)
 - i. What did the burglars steal from the warehouse? (2)
 - ii. What new orders were imposed for the residents of the Annex after the break in? (2)

Or

- b. What are the similarities between Anne and Peter? Do you think these reasons contribute to them becoming closer? (3+1=4)
17. 'During such exploits, finding a patch of oil or fuel which had fallen through a leak in the vehicle was like hitting the jackpot!' (*Fragrance of the Gods*)
 - i. Why was finding a patch of oil on the ground like winning the jackpot? (1)
 - ii. Why and how did the finder try to hide the oil? (3)
18. What are the signs and symptoms of rabies? Which region of the brain does the rabies germ favour? (*Man Against Virus*) (3+1=4)
19. 'Lord of Heaven and earth, look down in mercy
And remember that we have tried, though imperfectly,
All our days
To live by thy given code:' (*Prayer of the Meek*)
 - i. Who is the poet talking to? (1)
 - ii. What is the 'given code'? (3)

Read the lines and answer the questions that follow:

20.a. *'If you can't, they accept their fate.'* (In *Celebration of Being Alive*)

- i. Who do 'you' refer to? **1**
- ii. What is the fate that children accept? **2**
- iii. Why do you think they accept their fate more willingly than others? **2**

Or

b. *'Saliva glistens in
the corners of their mouths,
their heads wobble
on brittle necks, but
the laps
are filled with memories'*

- i. Who is being addressed in this poem? (1)
- ii. What is the attitude of old people when they laugh? (2)
- iii. What does the poet mean by *'their laps are filled with memories'*? (2)

21. *'Mr. Dussel has arrived. Everything went smoothly.'* (Diary of a Young Girl)

- i. Who is Mr. Dussel? **2**
- ii. What do the residents of the Annex get to know from Mr. Dussel about the outside world? **3**

Total number of printed pages : 6

NB-T/M-A/I

2024

MATHEMATICS - A

Total marks : 80

Time : 3 hours

General Instructions:

- i) Approximately 15 minutes is allotted to read the question paper and revise the answers.
- ii) The question paper consists of 23 questions.
- iii) All questions are compulsory.
- iv) Internal choice has been provided in some questions.
- v) Marks allocated to each question are indicated against it.
- vi) Write the correct question number in your answer sheet to indicate the option being attempted.

N.B: Check to ensure that all pages of the question paper is complete as indicated on the top left side.

Section – A

1. Choose the correct answer from the given alternatives.

(a) The number of zeroes of the polynomial $p(x)$ in the adjoining graph is

- (i) 0
- (ii) 1
- (iii) 2
- (iv) 3

1

(b) The pair of equations $2x + y = 5$ and $x + 2y = 4$ are

- (i) consistent and have a unique solution.
- (ii) consistent and have dependent solutions.
- (iii) inconsistent and parallel.
- (iv) consistent and parallel.

1

(c) The quadratic equation $2x^2 - \sqrt{5}x + 1 = 0$ has

- (i) two distinct real roots.
- (ii) two equal real roots.
- (iii) more than two real roots.
- (iv) no real roots.

1

(d) How many terms are there in the AP 3, 6, 9, 12, ..., 111?

- (i) 38
- (ii) 37
- (iii) 36
- (iv) 35

1

(e) If θ is an acute angle and $1 + 2 \sin \theta = 2$, then the value of θ is

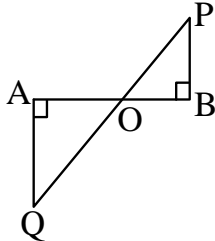

- (i) 30°
- (ii) 45°
- (iii) 60°
- (iv) 90°

1

(f) If θ varies from 90° to 0° , then how does $\cos \theta$ varies?

- (i) Decreases from 0 to 1
- (ii) Decreases from Not Defined to 0
- (iii) Increases from 1 to 0
- (iv) Increases from 0 to Not Defined

1

- (g) Q is a point on x -axis at a distance of 5 units from y -axis to its right. The coordinates of the point Q are **1**
 (i) (0, 5) (ii) (5, -5) (iii) (-5, 5) (iv) (5, 0)
- (h) QA and PB are perpendiculars on AB. If AO = 10 cm, BO = 6 cm and PB = 9 cm, then the measure of AQ is **1**
 (i) 6.67cm (ii) 10 cm
 (iii) 15 cm (iv) 25 cm
- 
- (i) If $\Delta PQR \sim \Delta XYZ$, $\angle Q = 70^\circ$, $\angle R = 60^\circ$, what is the measure of $\angle X + \angle Y$? **1**
 (i) 130° (ii) 120° (iii) 110° (iv) 50°
- (j) The number of tangents to a circle which are parallel to a given chord is **1**
 (i) infinite (ii) 3 (iii) 2 (iv) 1
- (k) If the perimeter and the area of a circle are numerically equal, then the radius of the circle is **1**
 (i) 2 units (ii) π units (iii) 4 units (iv) 2π units
- (l) The ratio of the total surface area to the lateral surface area of a cylinder with base radius 80 cm and height 20 cm is **1**
 (i) 2 : 1 (ii) 3 : 1 (iii) 4 : 1 (iv) 5 : 1
- (m) The construction of Cumulative Frequency table is useful to determine **1**
 (i) Mode (ii) Mean (iii) Median (iv) All the above
- (n) Two coins are tossed simultaneously. The probability of getting atmost one head is **1**
 (i) $\frac{3}{4}$ (ii) $\frac{1}{3}$ (iii) $\frac{1}{2}$ (iv) $\frac{1}{4}$
- (o) A die is thrown once. The probability of getting a composite number is **1**
 (i) $\frac{1}{6}$ (ii) $\frac{1}{3}$ (iii) $\frac{1}{2}$ (iv) 1

Section – B

2. Prove that $\frac{3+\sqrt{5}}{2}$ is an irrational number, given that $\sqrt{5}$ is an irrational number. **2**
3. Find the roots of the quadratic equation $2x^2 - x + \frac{1}{8} = 0$ by factorisation. **2**
4. Given $15 \cot A = 8$, find $\sin A$ and $\sec A$, with the help of a right triangle. **2**

5. In a rectangle, the angle between a diagonal and a side is 30° , and the length of its diagonal is 8 cm. Find the dimensions of the rectangle. 2
6. Find the point on the x -axis which is equidistant from $(2, -5)$ and $(-2, 9)$ 2
7. A vertical pole of length 6 m casts a shadow 4 m long on the ground and at the same time, a tower casts a shadow 28 m long. Find the height of the tower. 2
8. The length of the minute hand of a clock is 14 cm. Find the area swept by the minute hand in 15 minutes. 2

Section – C

9. (a) Find the zeroes of the quadratic polynomial $6x^2 - 3 - 7x$ and verify the relationship between the zeroes and the coefficients. 3
Or
 (b) Find the nature of the roots of the quadratic equation, $x^2 - 6x + 5 = 0$. If the real roots exist, find them. 3
10. Solve the following pair of linear equations by substitution method: 3

$$\frac{3x}{2} - \frac{5y}{3} = -2, \quad \frac{x}{3} + \frac{y}{2} = \frac{13}{6}$$
11. If the 3rd and the 9th terms of an AP are 4 and -8 respectively, which term of this AP is zero? 3
12. a. Evaluate $\frac{5\cos^2 60^\circ + 4\sec^2 30^\circ - \tan^2 45^\circ}{\sin^2 30^\circ + \cos^2 30^\circ}$ 3
Or
 b. Prove that : $\frac{1 + \sec A}{\sec A} = \frac{\sin^2 A}{1 - \cos A}$, where $\angle A$ is acute. 3
13. A 1.5 m tall boy is standing at some distance from a 30 m tall building. The angle of elevation from his eyes to the top of the building increases from 30° to 60° as he walks towards the building. Find the distance he walked towards the building. 3
14. The Class X students of a school, have been allotted a rectangular plot of land for their gardening activity. Sapling of Pine trees are planted on the boundary at a distance of 1 m from each other. There is a triangular grassy lawn in the plot, as shown in the figure. 3

- (i) Taking A as origin and AD as x -axis, find the coordinates of the vertices of the triangular plot.
 (ii) Find the coordinates of the midpoint of side PR. 3

15. a. A girl of height 90 cm is walking away from the base of a lamp-post at a speed of 1.2 m/s. If the lamp is 3.6 m above the ground, find the length of her shadow after 4 seconds.

Or 3

- b. ABCD is a trapezium in which $AB \parallel DC$ and its diagonals intersect each other at the point O. Show that $\frac{AO}{BO} = \frac{CO}{DO}$

16. a. Prove that the lengths of tangents drawn from an external point to a circle are equal.

Or 3

- b. Prove that the angle between the two tangents drawn from an external point to a circle is supplementary to the angle subtended by the line-segment joining the points of contact at the centre.

17. a. A chord of a circle of radius 15 cm subtends an angle of 60° at the centre. Find the areas of the corresponding minor and major segments of the circle. [Take $\pi = 3.14$ and $\sqrt{3} = 1.73$]

Or 3

- b. Rachel, an engineering student, was asked to make a model shaped like a cylinder with two cones attached at its two ends by using a thin aluminium sheet. The diameter of the model is 3 cm and its length is 12 cm. If each cone has a height of 2 cm, find the volume of air contained in the model that Rachel made. [Take $\pi = \frac{22}{7}$]

18. Find out the mean concentration of SO_2 in the air (in parts per million, i.e., ppm) for 30 localities using Step-deviation method, the data of which is below: 3

Concentration of SO_2 (in ppm)	0.00-0.04	0.04-0.08	0.08-0.12	0.12-0.16	0.16-0.20	0.20-0.24
Frequency	4	9	9	2	4	2

19. a. The given distribution shows the number of runs scored by some top batsmen of the world in one-day international cricket matches. Find the mode of the data.

Runs scored	3000 - 4000	4000 - 5000	5000 - 6000	6000 - 7000	7000 - 8000	8000 - 9000	9000 - 10000	10000 - 11000
Number of batsmen	4	18	9	7	6	3	1	1

Or

3

- b. The lengths of 40 leaves of a plant are measured correct to the nearest millimeter, and the data obtained is represented in the following table:

Length (in mm)	118-126	127-135	136-144	145-153	154-162	163-171	172-180
Number of leaves	3	5	9	12	5	4	2

Find the median length of the leaves.

20. A box contains 90 discs which are numbered from 1 to 90. If one disc is drawn at random from the box, find the probability that it bears: (i) a two-digit number, (ii) a perfect square number, (iii) a number divisible by 5.

3

Section – D

21. Answer any one from the following questions (a) to (c):

5

- a. Avibu went travelling by train with his father who is an expert in Mathematics. He told Avibu that path of train A is given by the equation $2x + 4y = 8$ and path of train B is given by the equation $3x + 6y = 18$. Help Avibu solve the following questions:

- (i) Represent the two equations graphically.
 (ii) Write the coordinates of the point where the line $2x + 4y = 8$ intersects the x -axis.
 (iii) Write the coordinates of the point where the line $3x + 6y = 18$ intersects the y -axis.

Or

- b. John was asked to represent the following statement in the form of a quadratic equation:

The sum of two numbers is 9. The sum of their reciprocals is $\frac{1}{2}$.

- (i) If John wrote the equation correctly, what would he have written?
 (ii) Find the values of the two numbers.
 (iii) Also, verify that the sum of the reciprocals of the two numbers is $\frac{1}{2}$.

Or

- c. Avika's mother opened a new shoe shop. To display the shoes, she put 3 pairs of shoes in 1st row, 5 pairs in 2nd row, 7 pairs in 3rd row and so on. On the basis of the above information, answer the following questions:

- (i) If she puts a total of 120 pairs of shoes, what is the required number of rows?
 (ii) What is the difference of pairs of shoes in the 17th row and 10th row?

22. Answer any one from the following questions (a) to (c):

5

a. State and prove Thales Theorem.

Or

b. Sides AB and BC and median AD of a triangle ABC are respectively proportional to sides PQ and QR, and median PM of ΔPQR . Show that $\Delta ABC \sim \Delta PQR$

Or

c. Prove that opposite sides of a quadrilateral circumscribing a circle subtend supplementary angles at the centre of the circle.

23. Answer any one from the following questions (a) to (c):

5

a. A round table cover has six equal designs as shown in figure. If the radius of the cover is 28 cm, find the costs of making the designs at the rate of ₹ 0.35 per cm^2 .

[Take $\pi = \frac{22}{7}$ and $\sqrt{3} = 1.73$]

Or

b. A tent is in the shape of a cylinder surmounted by a conical top. If the height and diameter of the cylindrical part are 2.1 m and 4 m respectively, and the slant height of the top is 2.8 m, find the area of the canvas used for making the tent. Also, find the cost of the canvas of the tent at the rate of ₹ 500 per m^2 . [Take $\pi = \frac{22}{7}$]

Or

c. A solid consisting of a right circular cone of height 120 cm and radius 60 cm standing on a hemisphere of radius 60 cm is placed upright in a right circular cylinder full of water such that it touches the bottom. Find the volume of water left in the cylinder, if the radius of the cylinder is 60 cm and its height is 180 cm. [Take $\pi = \frac{22}{7}$]

Total number of printed pages : 7

MATHEMATICS - B

Total marks : 80

Time : 3 hours

General Instructions:

- i) Approximately 15 minutes is allotted to read the question paper and revise the answers.
- ii) The question paper consists of 23 questions.
- iii) All questions are compulsory.
- iv) Internal choice has been provided in some questions.
- v) Marks allocated to each question are indicated against it.
- vi) Write the correct question number in your answer sheet to indicate the option being attempted.

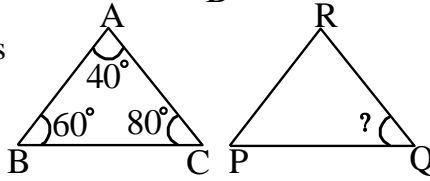

N.B: Check to ensure that all pages of the question paper is complete as indicated on the top left side.

Section – A

1. Choose the correct answer from the given alternatives.

- (a) A polynomial of degree 2 is called a 1
(i) quadratic polynomial. (ii) cubic polynomial.
(iii) linear polynomial. (iv) bi-quadratic polynomial.
- (b) If a pair of linear equations has no solution, then the lines are 1
(i) always intersecting. (ii) always coincident.
(iii) parallel. (iv) intersecting or coincident.
- (c) A quadratic equation $ax^2 + bx + c = 0$, $a \neq 0$ has two equal roots, then 1
(i) $c^2 - 4ab = 0$ (ii) $b^2 - 4ab = 0$
(iii) $b^2 + 4ac = 0$ (iv) $b^2 - 4ac = 0$
- (d) The common difference of the AP $\frac{1}{3}, \frac{5}{3}, \frac{9}{3}, \frac{13}{3}, \dots$ is 1
(i) $-\frac{4}{3}$ (ii) $\frac{4}{3}$ (iii) -2 (iv) 2
- (e) If $\sin\theta = \frac{\sqrt{3}}{2}$, then the value of θ is 1
(i) 90° (ii) 60° (iii) 45° (iv) 30°
- (f) In the adjoining figure, the value of $\cos \theta$ is 1
(i) $\frac{AB}{AC}$ (ii) $\frac{BC}{AC}$
(iii) $\frac{AB}{BC}$ (iv) $\frac{AC}{AB}$

- (g) The mid-point of the line joining the points $A(x_1, y_1)$ and $B(x_2, y_2)$ is 1
 (i) $\sqrt{(x_2 - x_1)^2 + (y_2 - y_1)^2}$ (ii) $\sqrt{(x_2 + x_1)^2 + (y_2 + y_1)^2}$
 (iii) $\left(\frac{x_1 + x_2}{2}, \frac{y_1 + y_2}{2}\right)$ (iv) $\left(\frac{x_1 - x_2}{2}, \frac{y_1 - y_2}{2}\right)$
- (h) In the adjoining figure, if $DE \parallel BC$, then EC is equal to 1
 (i) 4 (ii) 6
 (iii) 9 (iv) 12
- (i) If $\triangle ABC \sim \triangle PQR$, then the value of $\angle Q$ is 1
 (i) 80° (ii) 60°
 (iii) 40° (iv) 20°
- 
- (j) The number of tangents that can be drawn from an external point to a circle is 1
 (i) infinite (ii) 0 (iii) 1 (iv) 2
- (k) In a circle, if the lengths of the major arc and the minor arc are 30 cm and 14 cm respectively, then the circumference of the circle is 1
 (i) 44 cm (ii) 30 cm (iii) 16 cm (iv) 14 cm
- (l) The radius of the sphere whose surface area is 154 cm^2 is 1
 (i) 3.5 cm (ii) 7 cm (iii) 14 cm (iv) 49 cm
- (m) In the formula, Median = $l + \frac{\frac{N}{2} - c.f.}{f} \times h$, h is 1
 (i) highest frequency (ii) height (iii) class mark (iv) class size
- (n) What is the probability of a sure event? 1
 (i) 0 (ii) $\frac{1}{2}$ (iii) 1 (iv) Less than 1
- (o) A die is thrown once. The probability of getting a number less than 3 is 1
 (i) $\frac{1}{6}$ (ii) $\frac{1}{3}$ (iii) $\frac{2}{3}$ (iv) 1

Section – B

2. Given that $\text{HCF}(26, 91) = 13$. Find the $\text{LCM}(26, 91)$ 2
3. Find the roots of the quadratic equation $x^2 - 3x - 10 = 0$ by factorisation. 2
4. State whether $\sin(A + B) = \sin A + \sin B$ is True or False. Justify your answer. 2
5. A tower is $100\sqrt{3}$ m high. Find the angle of elevation of its top from a point 100 m away from its foot. 2

- 6. Find the distance between the points (1, -2) and (-3, 4) 2
- 7. E and F are points on the sides PQ and PR respectively of a ΔPQR . PE = 4 cm, QE = 4.5 cm, PF = 8 cm and RF = 9 cm. Check whether $EF \parallel QR$ or not. 2
- 8. Find the area of a sector of a circle with radius 21 cm if the angle of the sector is 60° [Take $\pi = \frac{22}{7}$] 2

Section – C

- 9. (a) If $\frac{-1}{3}$ and $\frac{3}{2}$ are the zeroes of a quadratic polynomial, find the polynomial and hence verify the relationship between the zeroes and the coefficients. 3

Or

- (b) Find the value of k for which the quadratic equation, $kx(x - 2) + 6 = 0$ has equal roots. 3

- 10. Solve the following pair of linear equations by substitution method: 3
 $2x + 3y = 11, \quad 2x - 4y = -24$

- 11. Find the 31st term of an AP whose 11th term is 38 and 16th term is 73. 3

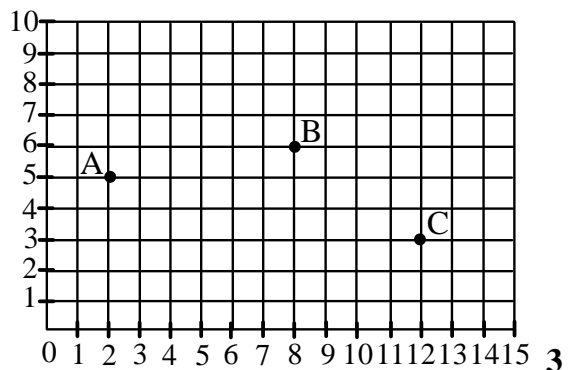

- 12. a. If $\cot \theta = \frac{7}{8}$, find $\cot^2 \theta$ with the help of a right triangle. 3

Or

- b. Prove that : $\sqrt{\frac{1 + \sin A}{1 - \sin A}} = \sec A + \tan A$, where $\angle A$ is acute. 3

- 13. From a point on the ground, the angles of elevation of the bottom and the top of a transmission tower fixed at the top of a 20 m high building are 45° and 60° respectively. Find the height of the tower. [Use $\sqrt{3} = 1.732$] 3

- 14. Three friends from Dimapur, namely Reema, Jyoti and Deepa living in different locations are represented by the points A, B and C respectively. They all go to the same school which is located at the origin O. Reema comes to school by foot, Jyoti comes by bus and Deepa comes by car. Using this information, answer the following:

- (i) Write the coordinates of the points A, B & C.
- (ii) How far is the school from Jyoti's location?

15. a. In the adjoining figure, if $LM \parallel CB$ and $LN \parallel CD$, prove that $\frac{AM}{AB} = \frac{AN}{AD}$

Or

- b. E is a point on the side AD produced of a parallelogram ABCD and BE intersects CD at F. Show that $\triangle ABE \sim \triangle CFB$.
16. a. Prove that the lengths of tangents drawn from an external point to a circle are equal.

Or

- b. The length of a tangent from a point A at distance 5 cm from the centre of the circle is 4 cm. Find the radius of the circle.

17. a. A chord of a circle of radius 10 cm subtends a right angle at the centre. Find the areas of the corresponding minor and major segments of the circle. [Take $\pi = 3.14$]

Or

- b. A vessel is in the form of a hollow hemisphere mounted by a hollow cylinder. The diameter of the hemisphere is 14 cm and total height of the vessel is 13 cm. Find the inner surface area of the vessel. [Take $\pi = \frac{22}{7}$]

18. The table below shows the daily expenditure on food of 25 households in a locality. Find the mean daily expenditure on food by a suitable method.

Daily expenditure (in ₹)	100-150	150-200	200-250	250-300	300-350
Number of households	4	5	12	2	2

19. a. A student noted the number of cars passing through a spot on a road for 100 periods each of 3 minutes and summarised it in the table given below. Find the mode of the data.

Number of cars	0-10	10-20	20-30	30-40	40-50	50-60	60-70	70-80
Frequency	10	14	13	12	20	8	15	8

Or

- b. The following frequency distribution gives the monthly consumption of electricity of 68 consumers of a locality. Find the median monthly consumption of the data.

Monthly consumption (in units)	68-85	85-105	105-125	125-145	145-165	165-185	185-205
Number of consumers	4	5	13	20	14	8	4

20. A box contains 5 red marbles, 8 white marbles and 4 green marbles. One marble is taken out of the box at random. What is the probability that the marble taken out will be: (i) red, (ii) white, (iii) not green? 3

Section – D

21. Answer any one from the following questions (a) to (c):

- a. Nina saw a creeper on the boundary of her aunt’s house which was in the shape as shown in the figure. Answer the following questions by considering that the creeper has the same mathematical shape as shown in the figure:
- (i) How many zeroes does the polynomial (shape of the creeper) have?
 - (ii) Find the sum of the zeroes.
 - (iii) Find the product of the zeroes.
 - (iv) Write the expression of the polynomial represented by the graph.

Or

- b. Rana usually go to a dry fruit shop with his mother. He observes the following two situations:

On 1st day: The cost of 2 kg of almonds and 1 kg of cashew was ` 1600.

On 2nd day: The cost of 4 kg of almonds and 2 kg of cashew was ` 3000.

Denoting the cost of 1 kg almonds by ` x and cost of 1 kg cashew by ` y , answer the following questions:

- (i) Represent algebraically the situations of the 1st day and the 2nd day.
- (ii) What is the coordinate of the point, which the equation represented by the 1st day intersect the x -axis?
- (iii) What is the coordinate of the point, which the equation represented by the 2nd day intersect the y -axis?

Or

- c. In a board game, the number of sea shells in various cells forms an AP. If the number of sea shells in the 3rd and 11th cell together is 68 and the number of shells in the 11th cell is 24 more than that of the 3rd cell, then answer the following questions based on this data:

a_1 a_2 a_3 a_4 a_5 a_6 a_7 a_8 a_9 a_{10} a_{11} a_{12} a_{13} a_{14} a_{15} a_{16} a_{17} a_{18} a_{19} a_{20}

- (i) What is the difference between the number of sea shells in the 19th and 20th cells?
- (ii) How many sea shells are there in the first cell?
- (iii) How many total sea shells are there in the first 13 cells?

22. Answer any one from the following questions (a) to (c):

5

a. State and prove Thales Theorem.

Or

b. In the adjoining figure, A, B and C are points on OP, OQ and OR respectively such that AB || PQ and AC || PR. Show that BC || QR.

Or

c. Prove that opposite sides of a quadrilateral circumscribing a circle subtend supplementary angles at the centre of the circle.

23. Answer any one from the following questions (a) to (c):

5

a. A brooch is made with silver wire in the form of a circle with diameter 35 mm. The wire is also used in making 5 diameters which divide the circle into 10 equal sectors as shown in the figure. Find the:

- (i) total length of the silver wire required.
- (ii) area of each sector of the brooch. [Take $\pi = \frac{22}{7}$]

Or

b. A tent is in the shape of a cylinder surmounted by a conical top. If the height and diameter of the cylindrical part are 2.1 m and 4 m respectively, and the slant height of the top is 2.8 m, find the area of the canvas used for making the tent. Also, find the cost of the canvas of the tent at the rate of `500 per m². [Take $\pi = \frac{22}{7}$]

Or

c. A *gulab jamun*, contains sugar syrup up to about 30% of its volume. Find approximately how much syrup would be found in 45 *gulab jamuns*, each shaped like a cylinder with two hemispherical ends with length 5 cm and diameter 2.8 cm. [Take $\pi = \frac{22}{7}$]
